

Three Lakes Park Commission Minutes
Meeting December 5th 2007, Present: Pat V. Jason Stebbeds, Tony G., and Rich J.

- Review of minutes and approval of September 19th 2007 meeting, motion by Tony, second by Pat unanimous.
- Discussion with Christy Samuelson on Skip Wagner Statue and placement in Cy William Park. Concerns over long term project and additional statues. Questions raised on future choices, placement in community, maintenance, and money to support program. Pat suggested this be taken to town board for further discussion and possible other locations for statue. Board has voiced its concern that Cy Williams may not be the best place for statue.
- Discussion with Don Eaglesham of Red Suspenders club on developing ice rink in Burnside Park. Location by pavilion with possible use of pavilion for warming house. Fire Department will support this project and help maintain. Concern over how this will be developed by either banking snow or purchasing a kit specifically made for ice rinks. Jason will review possible ice rink kits. This will be reviewed as we approach winter of 2008. All think it was a good idea but also need to look into supervision and hours of operation. Parks could install light from pavilion for night skating.
- 2007 budget seems to be in order. We should be at budget or slightly under. Rich will look at year end and purchase miscellaneous items needed for 2008 if budget allow. 2008 budget reflects wage increase as received by town employees. Discussion to take over maintenance of Info Bureau bathrooms. Tony Hallman will make adjustment as needed to cover increase. Rich will look for individual to handle this daily responsibility.
- Rich has asked town board to consider the purchase of a Park Truck. Looking for a smaller vehicle as current truck is becoming expensive to maintain. Repairs are exceeding the value of the vehicle. S-10 type truck with topper is preferred. Rich will look for possible options for 2008; we may try to use Park budget to fund vehicle as of now exploring all options. Three Lakes Auto will be contacted to research possibilities.
- Jerry Warner will return for 2008 mowing season. Tony Farkus will continue main responsibilities for Park maintenance.
- 2008 projects include the re-surfacing of both little league and high school diamonds. Rich will contact Joe Thorn and Pitlik and Wick for advice.
- Swing prep site in Cy Williams complete with installation for spring 2008. Rich will approach town shop to see if they will install swing set. Burnside location will be excavated in spring and additional equipment placed there as well. This is donated equipment from Camp St. Mary's.
- Next meeting to be determined as required most likely in March or April
- Motion by Tony to adjourn, second by Pat Volk, unanimous.

Respectfully,
Richard Javenkoski
